# DOME LAMP BRACKET

## LAMP HOLDER

65x45x360mm

CODE 13663

Lamp holder allowing adaptation of adapted power lamp. Includes a hook for fixing the base and an adjustable tube for a height of 30 to 60 cm. **WARNING:** Do not lay directly on the terrarium mesh surface.

# MINI DOME

## LAMP BRACKET

### MINI LAMP HOLDER

65x340x410mm

CODE 13664

**Note:** Non-contractual photo. Dome lamp not included.

Remark the fixation position.

Take off the sticker on the back of the fixation piece.

Lock the nuts.

Extend the iron pipe.

Install the rubber rings.

Hang on the dome lamp between the rubber rings.

Lamp holder. Can be hung at different heights thanks to its fixing device. Includes a metal clip for suspension. Metal bracket accommodates dome-shaped fixtures. Eliminates the need of placing dome lamps on the mesh top. Easily adjusts the position of the lamps at different heights. Helps to achieve optimum temperature and ultraviolet output.

# CERAMIC SOCKET

## E27

CODE 13665

E27 220-240V 50/60Hz

**200W**  
max

Heat resistant and ceramic lamp-holders for terrariums. Suitable for spot lamps up to 200W. Includes ON/OFF switch. Standard lamp connection E27. Lamp not included.

# LAMP WIRE BASKET

145x145x145mm

CODE 13666

**MAX.150W**

Internal protection cage for heat lamp. This avoids any risk of burning the animal. Can be glue or fix by screws.
