

MOONLIGHT HEATING LAMPS

50W **13693** 100W **13694**

E27 220-240V 50/60Hz

Ideal for simulating the night cycle.

Motivates the breeding behaviour of reptiles. Enables night observation of animals without disrupting the daily cycle. Maintains the environmental temperature high during the night for tropical animals and consequently increases well-being.

Note: protect from water splashes.

Distance from Bulb

Wattage	4"(10CM)	6"(15CM)	8"(20CM)	12"(30CM)	18"(45CM)	24"(60CM)
50W	29°C	27°C	25°C	24°C	23°C	-
100W	40°C	35°C	30°C	28°C	27°C	26°C

Test environment temperature: 20-21°C
